

Broening Highway Project

Description: Broening Highway, which leads to the Port of Baltimore, is undergoing road reconstruction from the Keith Avenue exit off Interstate 95 to the Dundalk and Seagirt marine terminals. The project includes new curbs, gutters, drainage, electrical, water mains and street lights. When finished, Broening Highway is expected to be a much smoother riding surface. The following are activities that will be taking place over the next three to four weeks.

As of 7/09/2015

Broening Highway Work over the next 3-4 weeks

South of Keith Avenue (towards terminals):

Remaining roadway construction southbound side of Broening

Installation of curbing and gutters

Light & signal pole installation

North of Keith Avenue (towards Holabird):

Street light & signal conduit & pole installation

New concrete railing installation

Remaining concrete roadway construction (under CSX bridge)

Expected completion date is projected to be end of September

Ramp from Keith Avenue to Broening and southbound Broening to be closed 7pm 7/10 to 5am 7/13 for concrete work at base of ramp.

All of Broening to be shut down from Holabird Avenue to the Colgate Creek Bridge over the weekend of 7/18-19 to remove all barriers, clean roadway and stripe roadway. Monday 7/20 normal traffic operations are expected to resume.

Expected completion October 2015
